ger, 35 Lacock street.

The first man to get a lecture in the morning was David W. Jones, a well-known Allegheny saloon keeper. His mustache was curled and twisted until its ends stuck out, as they were endeavoring to get as far away from his face as possible. His Henor first raked him regarding his domes-tic relations. Mr. Christy then opened up

on bim and made it worse.

Gibson Lightoap explained that an attorney had absconded with \$25,000. He and two others were held liable, and he had

transferred his property to his wife. The Court gave him a general overhauling as to his business methods, and seemed not over favorably impressed.

RATHER HIGH TONED.

P. J. Ritter has theological students board at his place. This he used as a principal argument in his favor last year. They left him when the fact was published. His record dwring the past year was none of the best, according to Mr. Christy, who closely questioned him. He admitted some of the facts and denied others.

The most pathetic incidents which crop out during the examinations consist in the calling out of the names of some habitual drunkard by Mr. Christy. The question is asked if he knows such and such a person. A smile of contempt arises to the applicant's lips, and he answers "Yes." He knows him well, too well in many cases. To the spectator's mind there arises the wison of the person of similar habits in his own neighborhood. A wreck of mankind, stranded on the reef of bad habits, a victim of the storm of weak resolutions. His red, bloated face, his breath redolent with the fumes of bad whisky, his clothes torn and fitthy, his voice hasky, a picture of misery and degradation, so disgusting that a reference causes one to shudder and turn sigh at heart. The object at which children point a linger of searn, methers hold up as a result of disobedience, and father, but the king of the strongest and most forcible temperance lecture that has ever been delivered this reading of the sad list with the usual comments.

John B. Miller, 13 East street, has a license and has a fairly good record.

Henry Meyers, 88 Second street, was refused a license hast year. Mr. Christy asked him if he rented a room to a man who conducted a feetilve game of poker. He said he did not know what the man did. He had a fair showing until this was brought out. He rented the room about a year ago. Frank McCoy, Central Hotel, Alleghenry, took charge a year ago. The bar has been closed since May. The house contains 70 rooms. He wants to run the bar himself. People, he says, will not stop at a temperance house.

DEATH OF ALLEGHENY COUNCILS. All of the Unfinished Business Disposed of at a Meeting Last Night-Close of Both

Common and Select Councils. Allegheny Councils died last night and the desks were cleared of all unfinished business of importance. All matters that were not disposed of will have to be introduced again when the new Councils organize next month. After approving of the business from the Select branch Common Council held a sort of a love feast as is customary, the retiring mem-bers being given an opportunity to say some-thing. Mr. Gerwig was called on first and made a speech on trusts and monopolies. He condemned them in very emphatic language and said they were ruining the country an also mentioned that Allegheny City was in danger. He did not mention the name of any corporation, but his defeat for re-election is atributed to the influence used against him by a ertain company.

The action of Common Council in lighting the city with electricity was not concurred in, but all papers bearing on the matter were sent back to the Gas Committee. Mr. Henricks said if it had not been for the recent city election this question would have been settled long ago. long ago.

The ordinance awarding the contract for the removal of dead animals to Dr. Czarniecki, at \$1,350 a year, failed. Some of the Councilmen thought the figure was too high, although it was explained that Dr. Czarniecki was the only bidder and might double his figures, they voted against it. Unless Dr. Czarniecki bids again against it. Unless Dr. Czarniecki bids again the city will be compelled to remove the dead animals from the streets with its own employes. The ordinance preventing the use of the First ward Diamond square for private business, except by farmers, passed. A resolution instructing the Wharfmaster to have the building of the Peoples' Gas and Pipeage Company on the wharf at Federal street removed, was passed.

HORSE POWER STREET SWEEPERS.

The Avenues of This City Will Now be Kept Clean From Dirt. One of the items in the contracts to be let by the city next week for the Department of Public Works will be an outfit of horsepower street sweepers, such as are now in now in most of the other large cities. They are to be used on all the streets in the lower por-tion of the city, as well as the streets paved with asphaltum in the Oakland and East End

The traction railway companies will also put on both street sweepers and sprinklers, and in-tend to keep the streets traversed by their lines clean. All the streets now unpaved in the East End and Oakland districts are to be the East End and Oakindo districts are to be paved this year with blockstone or asphalt, in-cluding Center avenue, from Soho street to Hiland avenue; Alken avenue, Forbes street, from the Court House to Soho; Fifth avenue, from the Oakland power house to Penn avenue; Penn avenue, from Fifth to the city line, and a large number of other streets in that section.

Yesterday about 200 men were put to work clearing away the debris and fixing up the double track of the Pittsburg, Virginia and Charleston road between Fourth street and Backles. AN OFFICIAL INSPECTION. President Roberts, with the other officials of e company, will take a trip over the road on

their annual spring inspection tour next week, and the track will be put in first-class condition for the trip.

For years the road has been using but one track upon which they would run trains. The other track was given to shippers to load and unload cars. This was a great accommodation, as it enabled them to load cars almost right at

their doors.

The growing business of the company has necessitated the constant use of two tracks in the city limits, and they have given notice that the privilege allowed shippers has been withdrawn. After next Monday shippers will have to haul their freight either to the Twenty-third or the Fourth street stations.

he could not be rallied, and died at the hour stated.

The hospital physician would not venture an opinion as to the cause of death. The remains were taken in charge by the Coroner, who will investigate the case this morning.

The deceased was 58 years of age, though he looked 80, and was a cousin of the late John McDonald Crossan, for many years proprietor of the Monongahela House. He was a native of Chambersburg, Pa., from which place he enlisted in the Second Infantry when the war broke out. He was wounded in "The Wilderness," and received an injury from which he never fully recovered. He came to this city after the war and for several years acted as book-keeper for Oliver McClintock & Co. Subsequently he began to dissipate and lost his standing and finally became a peddler of silverware polish, from which he made a living for the past ten years.

He boarded for many years with Mrs. Adam Wiggins, now living on Duquesne way. She said that "old Jeff" was often advised by his friends to apply for a pension, but he always refused.

A \$5,000 BOY

Released From the Allegheny Lockup Last Night for \$3.50. Several boys, some of them colored, were engaged in the pleasant practice yesterday afternoon of throwing mud and stones at pedestrians on Hemlock street, Allegheny. One man was hit in the eye and had to go into a house for protection. Robert King made an information before Mayor Pearson against four of the lads and they were arrested.

The prisoners were Tom Cennelly, Sam and John Thompson and Charles Barnum. The latter is a colered boy, aged about 6 years. At a hearing last evening the Mayor fined the prisoners \$1 and costs each. Young Barnum's mother heard of her son's arrest and walked into the Mayor's office in a very excited manner last evening, and asked what amount was required to secure her son's release. She was told that \$3.50 would open the iron gate, and throwing down a \$10 bill, said: "Take it out of that. It is said he went crazy from the loss of a fine set of shoemaker's tools, which were lost while being sent from here to Cleveland. His home is in the West End.

Christina Hornberger, the young woman who believes she is under the influence of mesmerism applied, as she thinks, by a man named Kurtz, and whose case has been noted at divers times, will be sent to the asylum on an order of court, which limits her incarcetation there for one year. She was sentenced by the Court last Saturday, but was given until yesterday to get hail for her good behavior. As she could not get it the sentence of the court was enforced. Perhaps the saddest case of them all is the one of Carrie Harrington, a It-year-old girl who has become insane from grief. She has been in the employ of Mr. John Aiken, of Shadyside, and it is said her father, Thomas Harrington, is now at the workhouse, where she went to see him a week ago. Her interview with him prostrated her, it is said, and on Tuesday she developed insanity and had to be sent to jail, and will be taken to Dixmont for treatment.

THEY FOUND THE LEAK.

An Allegheny Explosion Painfully Injured Two Men. Several employes of the Allegheny Heating Company were looking for a leak in the main at the corner of Chestnut and Liberty

REPORT OF A STAR CHAMBER MEETING

The Brewers and Agents' Association, of Allegheny county, held a meeting yester-day afternoon, at their rooms, on Liberty street, at which some very important business came up. The meeting was held with closed doors, but the following was learned from the members by THE DISPATCH re-President Eberhardt called about a dozer

members representing the association to order at 3 o'clock, Secretary Walther being absent on account of sickness, Mr. Ed Frau enheim took his place, and after the routine business was disposed of, special topics were taken up for discussion. The first of these was the license question. the conclusion being reached that the pres-

ent course of the License Court was too severe. The main topic of the afternoon was now brought before the society. Mr. Straub, of the firm of Herman Straub & Co., raised the important question whether liquor dealers should patronize firms whose

MEMBERS WERE PROHIBITIONISTS, other words, whether such firms should be boycotted. It was maintained that as such firms did not patronize the liquor dealers, but on the contrary worked for the destruction of the liquor business, it would be only common

business policy to oppose such firms by pro-ceeding on similar lines.

Although the expression of this view did not cause great astonishment, for the reason that Mr. Straub said the association has been tending toward such a course from the day of its organization up to date, yet there was some violent and determined opposition raised. It came from various members, who seemed to fear that such a course was entirely too precipitate and hasty. They advanced the view that such policy could only be the cause of still more violent opposition to the liquor trade, and would make enemies where none at present existed.

NO GLORY IN BUNNING AWAY. Upon this the other side retorted that it was better to fight courageously than to offer a tame submission, and that the liquor men would receive just as much antagonism from outside, no matter whether they fought back or not. It was also pointed out at this juncture that if all banded together now and made a determined effort to crush their opponents, the possibility existed of silencing them altogether, there being very few firms who were willing to have their trade ruined just for the sake of being able to fisunt their opposition to the liquor dealers in the face of the world.

This discussion was continued in such style for fully two hours, when the refractory members were brought around to the first expressed view. It was now in order to take action on the subject in hand, and immediate steps were taken to materialize the advanced theory.

Upon motion, a committee was appointed to take charge of the matter. The committee will make a thorough canvass of the county, in order to make up a list of all firms, persons or parties who secretly or openly Upon this the other side retorted that it

or parties who secretly or openly ARE AGAINST THE LIQUOR DEALERS and oppose them. This list, or as much of it as has been prepared, will be presented to the Brewers' Association at their next meeting, and day stating that it is not correct that the finan-cial status of the Southside Presbyterian with a notice in which he will be requested to antagonize the firms specified therein on every possible occasion and in every possible manner. It is expected that the work will be accomplished in the course of a few weeks, in time to make the plan effective for this campaign.

After this no further business was attended to as the General Campaign Computitive for the to, as the General Campaign Committee for the State is having a secret conference this week in Philadelphia. Until instructions are received from this source nothing further will be done.

THE GERMANIA BANK

On the Southside is Now a Substantial Fact -A New Bank Building Will Likely be Erected for the Purpose.

The new organization of the Southside bank has almost been entirely completed. The committee for establishing that institution held a meeting yesterday, and the entire capital stock of the new concern has already been subscribed.

The bank will be known as the Germania National Bank, and its capital stock will be \$200,000. Application for a charter will be made before the United States Controller to-day, and it is expected that all formalities incidental to the establishment of the bank will be settled so as to have the new concern open for business on June 1.

The following is a complete list of the stock-holders:

This is probably due to the fact that iron workers at the mill have plenty of time on the off turns, and these same young iron workers are the best dressed and best paid young men in the city.

cistion; Mr. King, of King & Son, glass manufacturers: I. Frank, of Lewis! Foundry and Machine Company.

Of these gentlemen, Messra. McKee and Cunningham are the largest stockholders holding \$30,000 between them. Since THE DISPACE published the first news about the establishment of the new bank, a hitch has occurred in the negotiations of purchasing the old bank building, and it is probable that the bank will not be located in that building at all. It was stated by one of the stockholders last night that Mr. Meyers is asking too much for the building, and inasmuch as an offer has been made to the stockholders' committee of a cheaper building in the immediate neighborhood of South Eighteenth street, it is probable that this latter offer will be accepted and an entirely new bank building will be erected.

This structure is to be built after the model of the Farmers' Deposit Bank on Fourth avenue. The building will contain nothing else, but accommodations for the bank purposes.

SHE GETS BACK AT HIM.

It Seems to Have Been a Fallare in This Particular Case. Agent Dean, of the Anti-Cruelty Society, made informations yesterday before Alderman McMasters, charging Joseph Blush, of 2743 Carson street. with cruelty and neglect of his two children and desertion and neglect of his two children and desertion of his wife, Matilda Blush.

The latter also charged her husband before the same Magistrate with surety of the peace. It is alleged that the defendant left his wife and tankly a year ago, and a few weeks ago he returned home, when he sued his wife for alleged infidelity before a Southside Alderman. She was held for court and Agent Dean secured her ball and since that time has been investigating the case. From what he learned he caused the information to be made, and the defendant will have a hearing on Saturday.

The typewriter is still as much of a mys tery to some people in way-back counties as was the photographing apparatus to the Indian chief who came to a gallery to get a picture made of his squaw, and peeping through from the operating end, saw her, as he sup-posed, standing on her head. But though many posed, standing on her head. But though many of the stories told are doubtless fabricated, here is one vouched for by a railway official:

A tax collector in Dunham township, Fayette county, tried to collect from the local agent some taxes owing by the Pittsburg, Mc-Keesport and Youghiogheny Railway Company. The agent told the collector that he must move on the company's works in this city, and soon the officials got a dun from him. An ornate and elaborate reply written on a typewriter was returned. The next heard from the collector was a bitter complaint made to a coke operator of the insult offered. Said he, the collector:

he, the collector:

"I suppose those people think because I've been raised in the woods that I can't read writing, and they have gone and got a letter printed and sent it to me. I suppose I can read writing as well as most of the people in that of fice."

A Few Wise and Sharp Words From Some of the Learned Speakers.

EXERCISES OF MUSIC AND PRAYER

The annual session of the Home and

Foreign missionary societies of the Presby-

terian Church for the Allegheny and Pitts-

burg Presbyteries, commenced yesterday morning in the Second Presbyterian Church, several hundred women being present, with Mrs. J. P. E. Kumler in the Chair. Singing and prayer were followed by the Home Secretary's report, which shows a falling off of receipts during the year. Mrs. Thomas Robinson read an interesting paper from the Foreign Secretary, and after the introduction of Mrs. M. E. Caldwell, of

exercises. The afternoon session was opened at 2 o'clock with fitting exercises. The report of the Treasurer, Mrs. George A. Kelly, showed the receipt of \$9,394 for the past year, a falling off of \$1,580 from the previous year's receipts. It was decided, upon

motion, to instruct the auxiliaries that they try to raise \$1,500 before April 15. Mrs. Tracy, who has worked in India for 18 years, made an address, in which she described the difficulties of her mission, in educating the women of that country, and the success achieved. She was followed by Miss Edith Harris, who sang a solo, and Mrs. Serota, wife of a Japanese naval officer, made an address, speaking of the life and customs in her native land.

A JAPANESE EXPERIENCE. Her guardian, Mrs. Davis, next spoke at considerable length on the several points connected with her missionary life, presenting in a beat manner her trials and obstacles of teaching in Tokio, one of the centers of Buddhism.

The following officers were elected for the ensuing year: President, Mrs. J. P. E. Kumler; Vice Presidents, Mrs. J. Q. Logan, Mrs. E. E. Swift, Mrs. C. M. B. Smith, Mrs. S. Scott, Mrs. G. W. Chalfant, Mrs. J. M. Shields, Mrs. A. C. Patterson, Miss Pelletrau, Mrs. F. A. Brooks, Mrs. N. Shaw; Corresponding Secretaries, Mrs. E. S. Waring, Mrs. F. H. Robinson, Mrs. D. W. Bell, Mrs. H. U. Ayres; Treasurer, Mrs. G. A. Kelly; Recording Secretary, Miss Emma Forsyth; Auditor, Mr. David Robinson. The meeting adjourned for tea at 5 o'clock.

At the evening session the church was crowded with people listening to the addresses of the Rev. M. E. Caldwell, of Bogota, South America, and the Rev. D. S. Kennedy, of Allegheny. The Rev. Dr. Sullivan opened the exercises with some remarks on missionary work. Her guardian, Mrs. Davis, next spoke at con

Step Toward the Combine. The Botanical Society of Western Pennsyl vania met last night at its rooms in Library hall, the meeting being called to order by President Hamilton with about 20 member

After the ordinary routine had been gone through, Mr. C. C. Mellor presented the society with a large collection of botanical works which he had received from various sources. He was followed by Dr. A. Ziegler, of Allegheny, who presented the society with a catalogue compiled by his solid. sources. He was followed by Dr. A. Ziegier, of Allegheny, who presented the society with a catalogue, compiled by himself, of the fora which occurs within the limits of Allegheny county. The book drew admiring remarks from all present on account of the great amount of work expended thereon. It was accompanied by an interesting collection of plants from the New Hampshire hills.

A strange object was next presented to the society in the shape of a large heart-shaped nut about a foot in diameter. It is the property of James McNeil, of Pittsburg, and is classified as the coco de mer, and as few specimens of its kind exist, it is very highly prized. The following persons were elected to membership: Rev. H. R. Johnston, C. J. Clarke, John Marron, Esq., Rev. W. J. Holland, Thomas N. Armstrong, Charles Davis, C. E., James Patton and Miss Nancy Girard. The following resolution was next presented by Mr. C. C. Mellor and was adopted:

In order to make an initiatory move toward effecting a union of the scientific societies of this vicinity for their common interest, and to aid the formation of new societies and ultimately to bring about an Academy of Art and Science; be it resolved that a committee be appointed to confer with any like committee of other bodies to provide for the above objects. In connection with this, it was stated by Colonel H. P. Roberts that a large number of societies were ready to enter into the scheme, among them the Engineers' Society. After an informal discussion as to the propriety of meeting in the middle of each month, for the purpose of inspecting specimens, the society adjourned.
